Forthcoming Books

It should be noted that these titles have not been promised, but rather projected.

The Wit of Bertrand Russell. London: Leslie Frewin, 1972.

Eames, Elizabeth R. Bertrand Russell and His Contemporaries. 1972.

In a note to appear in the forthcoming volume of the American Philosophical Society Yearbook, Mrs. Eames writes that "the study is concerned with philosophical interchange" between Russell and such philosophers as Frege, Wittgenstein, Bradley, James, Couturat, Meinong, Peano, Schiller, Dewey, Ayer and Ramsey. In addition to the published literature, her study makes use, where available, of unpublished correspondence and manuscripts of these philosophers.
