

Russell in Review

Proceedings of The Centenary Celebrations

at McMaster University Edited by J.E. Thomas
and Kenneth Blackwell

Russell in Review has been promised for over a year. We have received several dozen prepaid orders for it. We would now be returning those prepayments if we did not have excellent reason to believe that copies will be available for mailing by Christmas. The list price of the volume has in the meantime risen to \$18.00. But, UNTIL PUBLICATION, the PREPAID price to *Russell* subscribers remains at \$10.00, including postage and handling. AFTER PUBLICATION, the price to *Russell* subscribers will rise to \$12.00.

We cannot accept institutional orders. We will, however, be happy to forward them to Hakkert's distributor: SSHC Order Dept., 125 Bermondsey Road, Toronto, Canada M4A 1X3.

Russell in Review is a 288-page hardcover volume, handsomely produced and free of misprints. (We challenge readers to find any.) It also has five plates. The content of the essays - except for those on technical philosophy - is unorthodox. There have been very few studies on Russell in the fields of history, religion, education, political philosophy, and literature, but this volume has them all. It also has Christopher Farley's only (so far) recollection of Russell the man. As Russell's last private secretary, Farley was one of the last people to know him well.

Contents

Introduction: The Russell Centenary Celebrations
