Russell in Review

Proceedings of The Centenary Celebrations
at McMaster University

Edited by J.E. Thomas
and Kenneth Blackwell

Russell in Review is ready. WE HAVE RECEIVED IT FROM THE PUBLISHER, and the printers have done their job well. All those who prepaid should have received their copies by now. The list price of *Russell in Review* is \$18.00, but the price to individuals who subscribe to *Russell* is \$12.00. This includes postage and handling.

We cannot accept institutional orders. We will, however, be happy to forward them to Hakkert's distributor: SSHC Order Dept., 125 Bermondsey Road, Toronto, Canada M4A 1X3.

Russell in Review is a 288-page hardcover volume, handsomely produced and free of misprints. (We challenge readers to find any.) It also has five plates. The content of the essays - except for those on technical philosophy - is unorthodox. There have been very few studies on Russell in the fields of history, religion, education, political philosophy, and literature, but this volume has them all. It also has Christopher Farley's only (so far) recollection of Russell the man. As Russell's last private secretary, Farley was one of the last people to know him well.

Contents

Introduction: The Russell Centenary Celebrations
