

Project. She is currently working towards a B.A. in psychology at McMaster part-time and is in the third year of the degree. Our other departing staff member, Dr. Gregory H. Moore, has been awarded a five-year University Research Fellowship by the Natural Science and Engineering Council of Canada. His area of research is contemporary mathematics, specifically independence proofs in set theory, using the technique known as forcing. He will continue to work occasionally for the Project as a consultant. Dr. Nick Griffin has been busy looking for a replacement for Greg, but no one has yet been hired.

Graduate students returning for a second year on the Project are Marilyn Mason and John King, and at the University of Toronto, assisting John Slater, are B. P. Frohman and W. G. Stratton.—S.T.

PROJECT STAFF

Since our last issue, we have regretfully had to say good-bye to two of our staff members. The resignation of Carmen Stermann created an opening for a full-time typesetter. Jackie Hassan, our part-time operator, was the successful applicant. Replacing Jackie is Nancy Scott. Nancy, who holds an R.T. (general) diploma from the Canadian Society of Laboratory Technologists and had worked as an R.T. at the McMaster Medical Centre for four years, is making a major career-shift in joining the
