

Recent acquisitions: manuscripts, typescripts and proofs

by Sheila Turcon

THIS LISTING COMPLEMENTS the one in *Russell*, n.s. 6, no. 2. During the preparation of that listing it was discovered that a number of items had never been reported in *Russell*. In addition, new items which arrived since that compilation have been included. We are again indebted to the generosity of the libraries and individuals who have made much of this collecting possible. The 89 items listed here bring the total to 387. The recent acquisitions of manuscripts, typescripts and proofs have now been thoroughly reported, but more acquisitions are imminent.

The listing is chronological by time of composition or publication. Bracketed titles are supplied for documents that lack titles. Quoted passages in brackets are the first words of such documents. The Archivist has supplied first publication details from his and Ruja's forthcoming Bibliography of Russell's writings. Nicholas Griffin kindly identified the second item. The last acquisition listed is REC. ACQ. 1,012.
