

Editor's notes

Contributors. FRANCISCO RODRÍGUEZ-CONSUEGRA holds a Ph.D. from the University of Barcelona. He teaches philosophy at the Institute S. Vilaseca in Reus, Spain, and is spending the year at McMaster as a post-doctoral fellow in the Department of Philosophy. GILEAD BAR-ELLI is a member of the Department of Philosophy at the Hebrew University of Jerusalem. SHEILA TURCON'S work-day is split between the *Bibliography* for the Russell Editorial Project and cataloguing for the Russell Archives. GRAHAM SOLOMON recently obtained a Ph.D. in philosophy from the University of Western Ontario and is teaching at Wilfrid Laurier in Waterloo, Ontario. RICHARD A. REMPEL, of McMaster, is editing Vol. 14 of *The Collected Papers of Bertrand Russell*. ALBERT C. LEWIS is co-editor of the recently completed Vol. 2 of the *Collected Papers*. KIRK WILLIS teaches history at the University of Georgia. YOUR EDITOR has been immersing himself in desktop typesetting in order to continue *Russell* in its present form.

Erratum. In Gregory Landini's article in the last issue, at p. 33, l. 15, the formula should not contain "☐t".

The Bertrand Russell Society. The annual meeting is to be held at McMaster on 22–24 June 1990. Please submit papers to the Society's President, Dr. Michael J. Rockler, National College of Education, Evanston, Illinois.

New books. It is a pleasure to welcome the appearance of Elizabeth R. Eames' *Bertrand Russell's Dialogue with His Contemporaries* (Southern Illinois U. P.). Russell's *Philosophical Papers, 1896–99* is in the press (Unwin Hyman).

Inventory. A good deal goes on in the Russell Archives that does not get noticed in *Russell*. For instance, there is a fast-growing computer inventory of Russell's correspondence. Its design and operation recently graduated from test to production mode, with 13,000 records now on a mainframe computer. Sheila Turcon and Cheryl Walker are at present editing and inputting my unsorted cards—with brief topic notes—for Russell's vast dictated correspondence for 1952–69. With room and retrieval provision for names and a letter's other external properties, its subject-matter and its text, the potential for Russell Studies is immense.
