Recent acquisitions: correspondence
by Sheila Turcon

Since the last update, in 1981, of the correspondence held in Recent Acquisitions the holdings of Russell Archives have improved dramatically. The S.S.H.R.C.C. funding of the Russell Editorial Project in 1980 meant that for a number of years several researchers worked on tracing Russell’s correspondence in repositories and private hands around the world. As well, a major duty of the Assistant Archivist and Archives Cataloguer positions created by the Project grant has been to trace documents.

The results over nine years have been so spectacular that only the new correspondence to and from Russell can be reported. The large amount of correspondence between other parties concerning Russell and by various members of his family is catalogued in a card index available in the Russell Archives. Correspondence written on his behalf by his wives and secretaries is included here but only under the name of the recipient. A large number of correspondents could be reported under more than one point of reference. The solution has been to provide only one but give cross-references wherever they are needed, with the exception of his wives and secretaries and also Sir Stanley Unwin. The latter appears in so many entries that cross-referencing would not be practical. Subjects discussed in the letters are listed in the entries, but no subject index is provided. Once these letters are fully entered into our computerized Archives Inventory, subject searching will be possible. Our initial goal is to consolidate this and the previous Russell listings in the Inventory.

The large recent acquisitions have been dealt with thus. The George Allen & Unwin Papers (copies of the Russell files), Aly Russell Papers (microfilm and printout), and Lady Ottoline Morrell Papers (Russell files, microfilm and printout) were all acquired before the last listing in 1981, when they were reported only briefly. The present listing includes all third-party correspondence with Russell. Allen & Unwin is now Unwin Hyman Ltd. The Aly Russell Papers owned by Barbara Halpern now belong to Camellia Investments. The Dora Russell Papers, Rupert Crawshay-Williams Papers, and Kate Amberley’s Album have received their own listings in Russell. The Lady Constance Malleson Papers and Catherine Marshall Papers (copies of the Russell-related files) are reported here for the first time, following the guidelines outlined in the second paragraph. The remaining material in the Malleson Papers is catalogued in the Russell Archives card index. Material about Russell in the Marshall Papers has been flagged, but no cards prepared. The Edith, Countess Russell Papers are sorted but remain uncatalogued. I hope to begin work on them this summer.

It is only possible to estimate the size of the correspondence reported here. All recent acquisitions are filed in succession by date of receipt. Therefore it is not possible to give a physical measurement of the letters because the acquisitions also contain manuscripts, audio tapes, photographs, etc. In addition, many of the recent acquisitions are not reported here for reasons stated earlier. There are, however, 404 entries in this listing, covering approximately 2,700 letters, telegrams and postcards. We are especially grateful to 88 institutional libraries for sharing their holdings with us. The latest acquisition reported is no. 1,095, which arrived on 30 April 1990.

The following abbreviations should be noted: c. = card; L(s). or l(s). = letter(s); NCF = No-Conscription Fellowship; P(s). or p(s). = photocopy(ies); p.c(s). = post card(s); pmk. = postmarked.
