The previous update of manuscript acquisitions appeared in Russell, n.s. 13 (1993): 203–5. The 21 entries here bring the total to 541 entries of manuscript-related acquisitions since the Russell Archives' arrival at McMaster in 1968. See the “25-Year Index” in Russell, n.s. 15 (winter 1995–96) for citations of all previous updates. Transcripts of Russell's contributions to the BBC Brains Trust programme will be appear in a future update.

The listing is by time of composition or, failing that, of publication; books are listed by date of publication. Bracketed descriptions are supplied for documents that lack titles. Bold references are to, and first publication details are from, Blackwell and Rajas Bibliography of Bertrand Russell. Publication in the Collected Papers is noted. I wish to thank the three institutions that provided McMaster with copies of original documents in their possession.

The last accession listed is Rec. Acq. 1,229. "P." means photocopy; "ts.", typescript or typed, depending on the context; and "l.", letter.
