The edition of *New Hopes for a Changing World* indexed here was published by George Allen and Unwin in London in 1951. The pagination for Simon and Schuster's edition (New York, 1952) is very similar. Subtract about 5 from the page numbers below to find references in the American edition. The present index is the sixth in a series of indexes that began with a name index to *The Foundations of Geometry* (1897) in *Russell*, no. 8 (1972), another to *Human Society in Ethics and Politics* (1954) in n.s. 11 (1991), and the present indexer's full indexes to *Portraits from Memory* in 17 (1997), *Fact and Fiction* in 18 (1998), and *Authority and the Individual* in 19 (1999).—Ed.
