INDEX TO THE COLLECTED STORIES OF BERTRAND RUSSELL

The edition of The Collected Stories of Bertrand Russell indexed here is that of George Allen and Unwin, edited by Barry Feinberg and published in London in 1972. The pagination of Simon and Schuster’s edition (New York, 1972) is the same. A feature of this index is that many obscure persons are identified and briefly annotated. Single inverted commas indicate names and titles believed to be fictional. Such names did not appear in the earlier index to Fact and Fiction, but since all the fiction in that volume is reprinted in the Collected Stories, the lacuna is filled. Misprints are noted, but some were corrected in the US edition. Many of them derive from the fact that the texts in question were transcribed from Russell’s tape recordings of 1959.—Ed.
