

IN BRIEF

Henrique Jales Ribeiro. *Bertrand Russell e a filosofia analítica no século xx*. Coimbra, Portugal: Pé de Página Editores, 2007. Pp. 80. ISBN 978-989-614-0816. €10.00 (pb).

Bertrand Russell. *Principes de reconstruction sociale*. Trans. E. de Clermont-Tonnerre; revised, corrected and introduced by Normand Baillargeon. Laval, Qué.: Les Presses de l'Université Laval, 2007. Pp. x, 200. ISBN 978-2-7637-8485-4. Cdn.\$30.00 (pb).

Ribeiro has written a study of Russell and analytic philosophy in the twentieth century. In particular, he pursues his long-term inquiries into Russell's semantic or logical holism. The book should be translated into English.

Baillargeon has revised the 1924 French translation of Russell's most important work of political philosophy, e.g. by substituting *pulsion* for *impulsion* as a translation of Russell's key term "impulse". He has added a long introduction, some 30 annotations, his translation of Arthur Graeme West's letter of 27 December 1916 about the book, and a bibliography, mainly in English.
