The previous general update of acquisitions appeared in *Russell* in n.s. 39 (winter 2019): 188–90. The new listing covers items numbered 1,824 to 1,839, plus an addition to 840, with the latest items arriving in December 2021. Largely due to the Covid-19 pandemic, this update is smaller than usual as fewer items were received or available. Several items were received from other institutions and through the generosity of researchers, to whom McMaster Library is very grateful. Internet prints are from the Hon. Russell Archivist. The following abbreviations are used: L(s). or l(s). = letter(s); X. = image copies of any kind.
